1. This supplement to the office action mailed on Sep. 9, 2004, provides the missing text in the rejection of claim 13 under 35 U.S.C. 112, set forth in the office action mailed on Sep. 9, 2004, paragraph 7 at page 6.

The period of response has been reset to start on the mailing of this supplemental office action.

2. The office action mailed on Sep. 9, 2004, is incorporated in its entirety herein by reference. Claims 1-19 are pending.

3. The missing text of the rejection of claim 13 under 35 U.S.C. 112, second paragraph, is provided infra.

4. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 is indefinite in the phrase "a sphericity SF-1 of the toner being from 100 to 140 and a sphericity SF-2 of the toner being from 100 to 130." As discussed in the office action mailed on Sep. 9, 2004, paragraph 3, item (2), the instant specification does not define the parameters "L2" and "P2" in the equations used to define the terms SF-1 and SF-2. The

Art Unit: 1756

dimensions of SF-1 and SF-2 determined from the equations are $(\text{length})^{-1}$. However, the prior art defines the terms SF-1 and SF-2 to be dimensionless. Thus, it is not clear what are the definitions of the terms SF-1 and SF-2.
